

Chameleon Website Under Construction Page User Case

UML Diagram

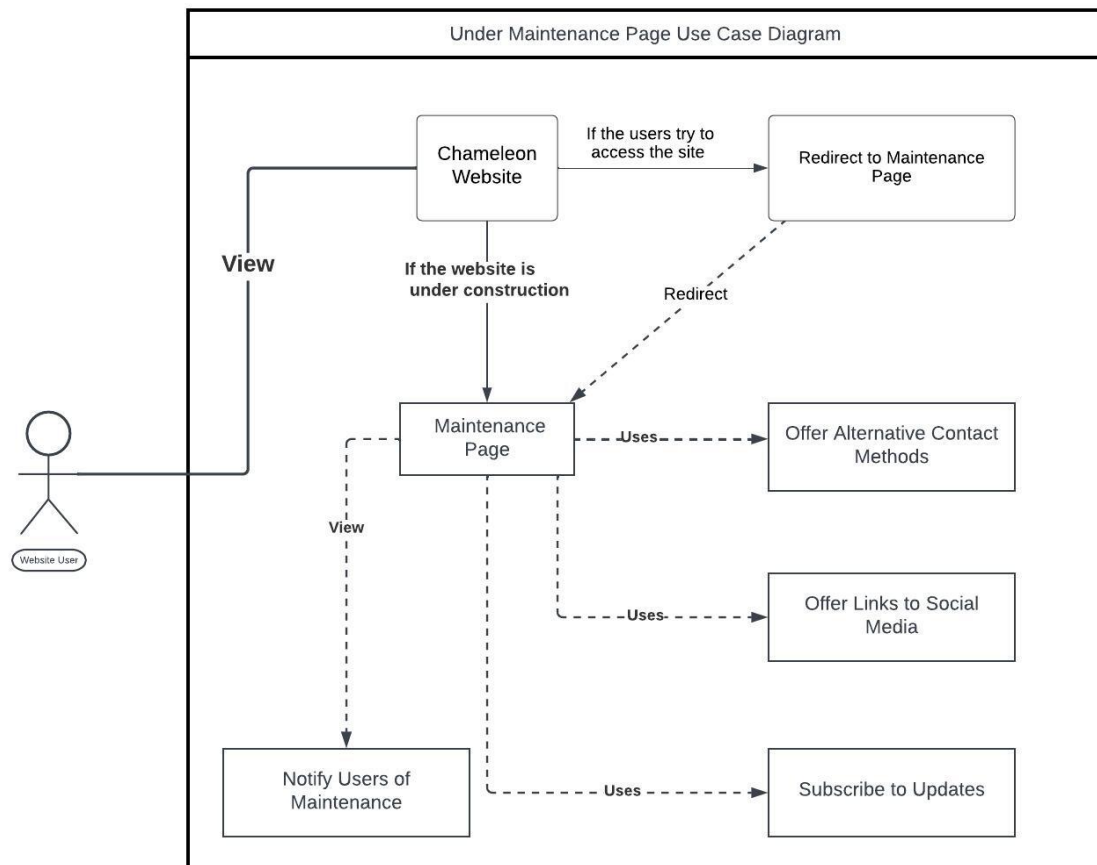

Figure 1: Under Construction page UML Diagram.

User Case Description

Use Case: Notify Users of Maintenance

Actor: System

Description: When maintenance is scheduled or occurs unexpectedly, the system displays the "Under Construction" page to inform users that the website is temporarily unavailable.

Use Case: Offer Alternative Contact Methods

Actor: System

Description: If users need immediate assistance or have queries, the page provides alternative contact methods, like email or phone numbers.

Use Case: Subscribe to Updates

Actor: Website User

Description: Users can subscribe to notifications, so they are informed when the site is back online.

Use Case: Redirect to Maintenance Page

Actor: System

Description: Any attempt to access the site redirects users to the "Under Maintenance" page during the maintenance window.

Use Case: Offer Links to Social Media

Actor: System

Description: The "Under Maintenance" page may offer links to the company's social media pages for users to follow for updates and information.
