How to Choose Colours for our Figma Design

1. Choose brand colour or dominant colour

#00A97F

2. Add two or more colours using the website: mycolor.space
https://mycolor.space/?hex=%2300A97F&sub=1

Matching Gradient

| #00A97F | #00A096 | #0094AF | #0086C2 | #0075CC | #005FC6 |

Twisted Spot Palette

| #00A97F | #0049B5 | #E4F0FF | #6A7798 |

Collective

| #00A97F | #00AEA3 | #00A1F9 |

3. Apply the 60/30/10 Rule to pick 3 different colours with high contrast
60% for background
30% for main elements, text
10% for exciting things to grab attention, e.g. Buttons that are called to action and the colour of buttons when hoving the mouse over telling users to click.
